

**Updated accounts for period 2019/2020-for companies exposed in CHARITY A NICE LITTLE EARNER**

My conclusion on the Third Sector and all those operating in it as 'charities/not for profit orgs' =  
Receiving profits that are tax free.. They perpetuate the problem and have no interest in solving or ending the issue-as they would bring about an end to their very profitable money from misery and their self –serving business opportunity..

I urge all people to do their own Research and utilise the Accounts of any organisation they are considering giving support to and simply weigh up whether you think they are worthy or not when there is often other organisations offering similar services .

Its perhaps worth bearing in mind that many of these orgs have actual genuine people within them giving their time and expertise for a fraction of their hierarchical counterparts or for no fees at all-also-

The average full-time salary in the UK for the year 2018 is just £35,423 per annum..

So many execs and employees are in these highlighted cases often earning in excess of double or treble that amount!

### ***Friends of the Earth-***

Quite frankly-nothing has changed with FOE - from literally 10plus years ago when I did my last report into their activities. THEY ARE GREENWASH MERCHANTS. They still have no policy on only employing vegans They still advocate the policies of the ridiculous Freedom Foods RSPCA people buying meat and dairy- they still fail to see or advocate that YOU CANNOT BE A NON VEGAN ENVIRONMENTALIST . As has been stated many,many times before- *if you add the aggregate harm of emissions from every car,truck,bus,lorry,plane,train and ship operating on the planet-it will not exceed the amount of damage through methane and water and land depletion and other factors resulting from animal agriculture.*

Vegan foods are now easily accessible across the UK and the amount of vegans now consuming them is at an all-time high –recent surveys show that it is somewhere between 5 and 7 percent of the uk population and growing each month. It is as mainstream as its ever been and vegan products are widely available in every leading food retailer. For the Friends of the Earth to not even promote that as the moral baseline is frankly ridiculous.

Other campaigns they have been involved with and seem to want to take credit for are also highly debatable.

I personally was involved with spending time at the anti-fracking sites at Barton Moss and at the Protest groups permanent camp near the cuadrilla site at maple farm on Preston New Road, Lancashire. Both in person and on-line I only witnessed a permanent presence from grassroots activists-none of whom were there in any official F.O.E. capacity that I'm aware of. I saw on a consistent basis activists being harassed, physically bullied and many times violently arrested by the police who seemed intent on siding with lgas operations.

F.O.E. FINANCIAL situation is reported as follows-(sources below)

Income £11,244,925 (million ) Expenditure £13,484,321 (million) Reserves £2million

### **WWF- World Wildlife Fund**

THEY recently attended Davos in Switzerland for the *World Economic Forum* event. The links between WWF and WEF are easy to trace.. AND blatantly obvious. Charles Saxe Coburg Gotha aka Prince Charles is the current President of the WWF and also a leading spokesperson for the W E F.

To many it seems as if the Climate Change agenda has been hijacked by the New World Order and the covid crisis is being used to implement an agenda that the World Economic Forum make no secret about= 'the great re-set', 'Agenda 2030', ' the 4<sup>th</sup> Industrial Revolution'. This is openly stated on the website of the World Economic Forum website.. 'By the time we reach the year 2030, you will own nothing but be happier..'

### ***WSPA(WiSPA)- Now known as WORLD ANIMAL PROTECTION***

After 're-branding' themselves the newly named World Animal Protection seem to continue to have the same Welfarist approach as they did when being WiSPA.. Instead of calling for a boycott of KFC(Kentucky Fried Chicken)or exposing the barbaric practices of that company and advocating people only ever buy the Vegan burgers from there...they instead engage in legitimising the mass murder of hens and campaign for 'better conditions' for hens before they are mass slaughtered. They state "This doesn't mean we are aggressive, but it does mean we are courageous. And we get results.." –this being in regards to their dealings with KFC-THEY THEN CONTINUE. We are in conversations with KFC to improve the lives of the birds upon which their business depends... NO PROTECTION HERE FOR THOSE ANIMALS-JUST WELFARIST WAFFLE TO EASE THE CONSCIENCE OF THE CONSUMERS WHO CONSUME THOSE CORPSES. NOTHING "COURAGEOUS" ABOUT ENDORSING THE DEATHS OF THOSE ANIMALS –JUST COWARDICE! BIGGER CAGES OR THE SO CALLED "FREE-RANGE" IS NOT THE ANSWER-ENDING THE ANIMAL INDUSTRY IS THE ANSWER! "FREE-RANGE" IS NEVER A FREE CHOICE FOR

ANY ANIMAL TO COME AND GO AND LEAVE FOR ITS NATURAL ENVIRONMENT.. ITS JUST A PRISON WITH PERIMETERS THAT ARE SLIGHTLY FURTHER FROM THEIR CELLS AND AN IMMINENT DEATH SENTENCE.

Just 35 days KFC allow those baby chicks to live before they are violently slaughtered on a conveyor belt with their throats cut in from of other chicks before they also meet the same fate.. 30 YEARS IS THE AGE THAT A HEN CAN BE EXPECTED TO LIVE TOO AND TAKES PLACE IN ANIMAL SHELTERS THAT THEY HAVE BEEN LIBERATED TO..

### ***RSPCA=Royal Society Prevention Cruelty to Animals***

RSPCA-Little seems to have changed- high salaries and endorsing the mass extermination of animals in captivity for the Food Industry. Their 'Freedom Foods' scheme legitimizes the captivity of animals and helps ease the consciences of the ignorant who think they are supporting a 'superior standard' of farming. There's been countless numbers of Reports that show that's contrary-with animals suffering across 'Freedom Foods' farms-some Reports listed below.(bottom links)

They report they receive 1,218,364 (million) phone calls a year (2019)

They have 273 Inspectors and 90 animal Rescue Officers to 'prevent cruelty and promote kindness'.

They investigated 185,957 cases. They have 152 RSPCA Branches, 39 clinics and 3 mobile clinics.

They claim to 'improve the lives of millions of farm,lab and wild animals and 4 million scientific procedures are carried out using animals in Labs in the uk-900 million 'farm animals' are reared every year in the uk.

They still have the monarch Elizabeth Saxe Coburg Gotha as patron who is a well- known "shooting enthusiast" KILLING ANIMALS FOR 'SPORT' AND ALSO supporting the barbaric Horse Racing Industry that sees over 200 Horses die a year in the UK alone from being forced to Race.

They secured 661 convictions at a rate of getting prosecutions for less than 1 percent of all reported cases..

Income from fund-raising (excluding Legacies (WILLS)) was £39.6 million

Legacy Income was £69 million. Freedom Foods (the legitimising of animals on their approved farms and logo placed on shops selling this) generated Income of £3.7 million pounds with it being claimed that it also incurred 'costs' of £3.7 million pounds..The previous year (2018) this had seen profits of £300,000 through this. RSPCA has investments totalling £88.6 million with net gains of £7.2 million.

Pension scheme increased by £7.8million to £36.5 million

Total Assets less liabilities £255,608million

Wages totalled £63,196million-including £5,296million paid into the pension pot

### ***PDSA-Peoples Dispensary for Sick Animals***

For more than a century, PDSA has sought to protect and strengthen the precious bond between pets and their owners. In the slums of 1917 East London, Maria Dickin set up a dispensary to relieve the suffering of animals whose owners could not afford veterinary care. In doing so, she was not simply helping animals, but helping to relieve the effects of poverty on families and communities. Since then we have grown to be one of the UK's largest veterinary organisations, touching the lives of more pets and their owners than any other animal charity, by delivering compassionate care in our 48 Pet Hospitals nationwide

Our strategies bring to life how we will achieve our charitable objects, as described in the two Acts of Parliament (1949 and 1956) and the Parliamentary Scheme 2015 that govern PDSA. These define our objects as: (a)The provision of free medical or surgical treatment, or such treatment at reduced charges, to animals belonging to persons who are unable to afford the services of a veterinary surgeon. (b)The prevention of suffering of animals by the provision of preventive treatment, care and advice (whether free, at a reduced charge, or at full charge). (c)The education of the public in matters concerning animal health and welfare in general. (d)The advancement of animal welfare for the public benefit by any other means

**Employ 738 vets and nurses-48 Pet Hospitals- Cost 71 million to deliver their services**

**KidZania** We continued to hold activities at KidZania, an 'edutainment' centre for children in London. We have reached more than 55,000 children since opening our mini Pet Hospital on 10 July 2017. There are around 60 activities available for children to take part in and our activity is currently the fifth most popular in the city. We will reach fewer children at KidZania in 2020 as the centre has been closed in line with UK Government response to the Covid-19 crisis. **Pet Health Hub** Providing easy-to-understand, evidence-based clinical advice to pet owners in innovative ways is central to improving pet wellbeing.

**Impacts**•At the end of 2019, 477,234 users had accessed the Pet Health Hub. •98% of people said that the article they read helped them care for their pet •97% learnt something new •91% said it had helped prevent their pet from suffering You can access our Pet Health Hub at [www.pdsa.org.uk/pjh](http://www.pdsa.org.uk/pjh)

They seem to have expanded their services and the area they now cover –now covering the whole of the UK-

They appear to have 'turned the corner' since the last Report compiled on here in 2009/10. They appear to be a highly impressive org providing much benefit for animals and their carers/guardians-although the Salaries they pay do appear to have a large number on what would be considered "excessive' and it has to be questioned as to how this may affect the price that people may have to pay for their Veterinary Services..

Those who have done the Research will know that testing on animals is NOT safe for Humans –what works in one species does not necessarily work in another species. THESE TESTS ARE POINTLESS AND ONLY DONE FOR THE LARGE AMOUNTS OF MONEY THAT CAN BE MADE IN PROFITS IN THE NAME OF SO CALLED “RESEARCH” “ADVANCEMENTS IN SCIENCE”.
